

URA Premio

Semi Automated Biochemistry Analyser

URA Premio

- 7" LCD touch screen based powerful yet easy to use interface
- Onboard multipurpose incubator for reagents, tubes and cuvettes
- Supports Coagulation Mode for PT/APTT testing
- 8 filters onboard including 340, 405, 450, 510, 546, 578, 600, 630nm + 2 open positions
- Pre-programmed and Validated for Ozone Clinical Chemistry
- On board thermal printer
- Auto sleep lamp function for extending life
- Best in class ARM Cortex A7 processor for fast processing
- Built in memory for 300 programs and 2 million results
- Flow cell + Cuvette Mode
- Online real time graphs
- Multiple test modes (end point, kinetic, fixed time, multipoint, clotting etc.)
- High absorbance range of 0 – 3.3 Abs
- Modern analyzer with USB as well as Ethernet connectivity
